

**The new way of Sightseeing**

# Budapest?

**Budapest's beauty is not all God Given; humankind has played a role in shaping this pretty face too.**

# Who are we?

- The driving passion is to show our lovely capital city for the tourists, not just the main monuments, but the more intimate places as well, by bohemian vehicles, the new models of Piaggio APE Calessino.
- The Budapest TukTuk experience allows you to witness every corner of Budapest coming alive: your driver is also your personal guide.

# What is the TukTuk?

- The Italian PIAGGIO company provides an exclusive solution for the carriage of passengers in urban environments. Design is an inherent symbol of the people of the Mediterranean Sea: a single look at these vehicles brings a smile to our faces every time we see them.
- TukTuk is a city cabriolet, which guarantees a more intimate and bohemian form of sight-seeing. It can access places that over vehicles can't.

# What can we offer?

- TukTuk tours help to explore parts of the city which would not be presented on an average city tour: narrow lines, hidden squares, that is, everything that Budapest really means.

# Let the city talk to you!

- Every TukTuk is equipped with a tablet to allow passengers to access PocketGuide, the audio tour application, free of charge.
- Every TukTuk is a real, mobile Wifi Hotspot .
